

# Lake Crackenback Resort Mountain Bike Trails

## Lake Crackenback Resort Trails

The mountain bike trails at Lake Crackenback Resort (LCR) are open for public use weather depending. Please register at the Resort Activity Centre before riding. These trails are purpose built and offer a variety of levels and distance options depending on your fitness and skill level. You can also connect to the TVT and Muzzlewood Trails near Bullocks Hut. The Skills Area includes a Pump Track and Mini Flow Line as well as a range of structures to test and improve your bike handling skills.

### Easiest Trails

The Bullocks Hut Track is a short section of shared pathway that links the LCR trails to the TVT and Muzzlewood Trail.

### More Difficult Trails

The intermediate trails are a mix of service road and purpose built single track. The trails are mostly fast and flowing with limited climbs and descents. The Resort MTB Trail winds its way around LCR and is mostly open and flowing. There are some tighter corners, short climbs and downhill sections as well as some rocky terrain. This trail is regularly maintained and constantly improved. Along the Riverside Trail there are some tighter sections and rock obstacles where it follows the Thredbo River making this a more challenging ride. The signage around the resort is good and by combining these trails with the TVT and Muzzlewood track you can increase the variety and challenge of the Resort MTB Trails.

### Trail Name & Number

#### Easiest Trails

- 1 Bullocks Hut Track

#### More Difficult Trails

- 2 Village Loop Trail
- 3 Thredbo River Loop Trail
- 4 Thredbo Valley Trail (TVT)
- 5 Muzzlewood Trail
